Objective

My passion for Mathematics has carried me through my education at Arizona State University, where I completed my bachelor's degree in, The College of Liberal Art's and Sciences. I have learned the importance of quantitative thinking, analytical problem-solving, and universal application. I find mathematical challenges so rewarding, driving my determination to solve problems successfully.

Professional Summary

I am a highly motivated professional with a strong background in data analysis and programming. My technical skills include proficiency in Excel, Python, C++, Java, SQL, MatLab, and Sharepoint. I excel in complex problem solving and critical thinking, allowing me to effectively manage IT projects and data, ensuring customer satisfaction. I am dedicated to efficient time management, and my experience in data analysis and programming equips me with the tools to drive success in a variety of technical roles.
